

アルミニウム陽極酸化皮膜用表面調整剤

Surface Conditioner for Aluminum Anodizing Film

TACソーマル244

TAC SORMAL 244

樹脂などの異種材料が接合した陽極酸化処理品において、接合界面からの酸のしみ出しによる染色不良を防止し、TAC染料の染色性を向上させます

TAC SORMAL 244 prevents poor dyeing by oozing out of acid from a bonding interface between anodizing film and other material such as resin, so that it enhances dyeing ability of TAC Dyestuffs, for an anodized article to be bonded to other material involving resin
